

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

CHARLES TOWN UTILITIES, WV3301905

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 1/1/2014 and 12/31/2019, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
03, MONITORING, ROUTINE MAJOR Radiological Sample Results Not Submitted	1/1/2014 to 12/31/2019

What happened? What is being done? (Describe corrective action)

Our contracted laboratory failed to provide us with results for radionuclides in 2019, we have since performed the sampling for these
contaminants and have shown that levels are well below the maximum contaminant levels set by the Unites States Environmental
Protection Agency.

For more information, please contact Chris Hutzler at 304-725-3761
